## RIOTING MORE FIERCE

PROLONGED AND BLOODY CONFLICTS OCCUR ON STREETS OF CHICAGO.

### WANT TROOPS CALLED OUT

BUSINESS MEN FAVOR THE USE OF STATE MILITIA TO QUELL THE DISORDERS.

Chicago, May 4.—Rioting in the streets during the day was so prolonged and of so fierce a character that many of the leading business men have concluded that there will be neither peace in the city nor safety for its business interests until the state militia has been called out to restore order. A committee of members of the employers' association left for Springfield during the day to confer with Governor Deneen and to request him to give orders to the state troops.

The labor unions have several representatives at the state capital and it is likely that they will also be heard before any action is taken by the governor. Chief of Police O'Neill says he is confident that he has control of the situation and can keep peace in the city. Mayor Dunne supports him in this view and has declared that in his opinion the emergency has not arisen requiring the presence of troops.

On the other hand the business men point to the long list of injured which marked the rioting of Tuesday and the great number who were hurt Wednesday, and declare that this alone is sufficient proof that the police are not sufficiently strong to cope with the situation. No complaint is made against the police department, for the officers have dispersed every mob with which they have come in contact and have guarded wagons night and day with the greatest vigilance. But despite their utmost efforts the fighting continues in the streets and is, if possible, more vicious on each succeeding day.

Unable to Prevent Attacks. While the police have been able to disperse mobs and guard wagons they have not been able to prevent the many attacks that are made on non-union men in the business portion of the city alone. The situation, the business men claim, will be tenfold worse when express wagons and retail delivery wagons are sent to remote parts of the city.

Mayor Dunne was emphatic in his declaration at night that he will not acquiesce in any call for outside assistance in preserving order and intimated that he will strongly oppose any attempt to secure armed protection. He takes the position that Chicago must first exhaust every possible resource before it can stand before the world and admit that peace and order cannot be preserved in the city's streets.

Despite the orders of Mayor Dunne and the prohibition of the city council many wagons of the concerns against which strikes were declared were handled during the day by men armed with rifles and shotguns.

The first rifle shot fired during the strike went whizzing through a crowded thoroughfare. The shot was fired by a guard on a wagon of the United States Express company while it was passing through a crowd of strike sympathizers at the intersection of State and Randolph streets. In driving past the corner the driver of the wagon reined his horses up suddenly. A guard within the wagon poked his head instantly from the wagon and, seeing a street car conductor stooping as though to throw a missile, pulled the rifle's trigger without the slightest hesitation. No person was hit and it developed later that the conductor who narrowly escaped death was intent solely on "throwing a switch."

### Request Is Declined.

The request of the employers made during the day that the police be allowed to ride on their wagons was declined by the chief of police. Positive orders were issued that under no circumstances must the officers mount the wagons, and they will continue to march abreast of the wagons on the street, or keep along with them while walking on the sidewalks.

One hundred and fifty wagons of the seven express companies went to and fro across the city during the day, in many instances completely unguarded and at no time under the supervision of more than one or two policemen. Every wagon carried a guard, some of whom were armed with Winchester rifles, and others carried heavy double-barreled shotguns. The guns were in plain evidence throughout the day and no attempt was made to interfere with any of the express wagons.

The trucks of the Scott Transfer company were also guarded in the same manner. The company transacted its business as though there had been no strike against it.

as evenly balanced as they were before. The accession to the ranks of the teamsters was made when a strike was declared against the coal firm of Crerar, Clinch & Co. This concern employs several hundred men and delivers coal to a large number of the most prominent office buildings in the city. One of the drivers was discharged for refusing to make deliveries and the rest walked out at once.

The gain for the employers' association was made when the members declared that deliveries would be made to any place in the city irrespective of strike conditions. If drivers refuse they will be discharged.

The mobs that filled the streets in the business section during the day were larger and uglier in disposition than those of previous days. There was fighting in all sections of the downtown district throughout the day and over a dozen times the police were compelled to use their clubs, and the wagon guards who are armed with heavy canes swung them whenever they were attacked or thought an assault was about to be made. In many cases these guards were not careful whom they hit and there were a number of persons who were knocked down simply because they happened to be the nearest men to a stalwart guard carrying a hickory club.

### Strikers Equally Indiscriminate.

On the other hand the strikers and their friends were equally indiscriminate in assaulting people. There were a number of instances where mobs boarded street cars and wantonly attacked people riding in them, giving as a reason later that they were strike breakers, when in fact they had nothing whatever to do with the trouble. W. Jamison and Edward Boswell, the latter a colored medical student, were two sufferers in this direction. The mob that boarded a State street car on which they were riding dragged them off and beat them unmercifully. Walter Norton, another colored man, while passing Van Buren and Market streets, was proclaimed to be a strike breaker and beaten almost to death. Up to 2 a. m. over a score of men had been taken to hospitals with all sorts of injuries. One of these, T. C. Carlson, a superintendent employed by Montgomery Ward & Co., may die. Carlson was in charge of the auto trucks of Montgomery Ward & Co. and was riding on the first of a caravan of six machines which was passing the teamsters' headquarters at 274 Madison street. While his attention was occupied by some of the machinery on one side of the auto truck he was riding in he was struck by a brick hurled from the window of the teamsters' headquarters. A large gash was cut in the side of his head and he sustained a violent concussion of the brain. It is expected that his injuries will prove fatal.

### About Seventy-five Injured.

Only the names of about twenty-five injured men could be learned and there were fully twice as many who were injured in the various fights of the day and whose names could not be learned. In one fight at Harrison street and Michigan avenue four men were knocked down by wagon guards and carried off by their friends. Similar occurrences were the rule whenever the police charged into a mob and the number of injured is probably closer to seventy-five than to twenty-five.

A report was current at night that President Shea of the teamsters' union had made overtures to the employers' association looking toward a settlement of the strike.

Shea's proposition, it is said, was for the employers to reinstate all the union teamsters now on strike with the exception of those who prior to the strike had been employed on wagons which have been taken over by the employers' association. The employers, it is asserted, refused to consider the proposition in any manner, declaring that they were of the opinion that the fight was practically won, and they would continue the fight until the teamsters' organization was broken up.

A meeting of the employers' association was held at night at the Union League club and plans for calling on Governor Deneen for the state militia were discussed. After the meeting it was said legal steps would at once be taken to bring state troops to Chicago.

### OREGON BANK IS ROBBED.

Bandits Who Did the Work Are Surrounded in a Swamp.

Woodburn, Ore., May 4.—The Bank of Woodburn was robbed of \$2,000 late in the day by two masked robbers who covered Cashier Tracy Poorman and the bookkeeper, Miss Gertrude Eddy, with revolvers. One robber stood guard while the other rifled the cash drawer. A large posse of citizens immediately started in pursuit and inside of an hour the two bandits were located in Looney's swamp, just outside the town limits. The swamp is now surrounded by large numbers of armed men. It is believed the robbers will be captured.

### Bad Storm in Iowa.

Spirit Lake, Ia., May 4.—A storm which struck Spirit Lake at night injured two persons, one fatally, and damaged property to the extent of \$25,000.

## H. F. MICHAEL CO'S Daily Store News

### Those "Nemo" Corsets—They Fit

Were you to go to a shoemaker, he would make you a shoe to fit your foot perfectly, and yet you would not want it, for in most cases it would fail to conform to the latest vogue. You buy shoes from your shoe dealer who gives the style and fit. So it is with a corset: Many ladies buy corsets of a canvasser who makes a corset to fit, but it lacks the element of style. "Nemo" corsets have both style and good fitting qualities. We fit your form perfectly with a corset which gives you the proper figure and your dress of the latest vogue appears correctly when worn over it, and then there is such a great saving in price. Ask to see them.

We Fit all Corsets selling above \$2.00.

## JURY FAILS TO AGREE

THIRD TRIAL OF NAN PATTERSON ENDS WITHOUT A VERDICT BEING REACHED.

### CASE MAY NOW BE DROPPED

FORMER CHORUS GIRL MAY BE SET FREE AND THE INDICTMENT QUASHED.

New York, May 4.—Having failed to reach a verdict and declaring that they were hopelessly disagreed, the jury in the Nan Patterson case was formally discharged at 2:20 o'clock Thursday morning.

The jury was given the case at 1 o'clock p. m. Wednesday and after deliberating twelve hours came into court at 1:30 a. m.

When the twelve men were in their places and the court officials had all arrived, the recorder asked why the defendant had not been brought into court. A deputy sheriff replied that she had been feeling ill and had retired, but was then being dressed. After a short wait Miss Patterson appeared, looking pale and in a highly nervous state.

The foreman of the jury reported a disagreement and Recorder Goff sent the jury back to reconsider the matter.

At 2:20 o'clock the jury again entered the courtroom where the recorder and other court officials were in waiting and the foreman announced that they had failed to agree on a verdict. He added that their disagreement seemed hopeless of adjustment. Upon this announcement Recorder Goff formally discharged the twelve men composing the third jury that has considered this celebrated case.

### Majority Favored Acquittal.

It is understood that a majority of the jury was for acquittal, but in what proportion cannot be ascertained.

Miss Patterson collapsed on the jury's announcement and fainted dead away. She was assisted from the court by one of her counsel and several court attendants and revived in an ante room.

On the second return of the jury, Recorder Goff made a personal appeal to the foreman to endeavor again to reach a verdict. The foreman entered the jury box and polled the jurors in open court, but they were not able to agree. The recorder then asked them if there were not some point in law or something he could do by which they might be able to reach a verdict, but the jurors remained steadfast and finally declared their verdict a disagreement.

Future procedure in the case is uncertain. The district attorney's office may not attempt another trial. Should this be the case Miss Patterson would be released either on nominal bail or under her own recognizance and the indictment eventually be quashed.

### FINANCIAL CONDITION GOOD.

That of Catholic University More Encouraging Than Expected.

Washington, May 4.—The trustees of the Catholic university met here during the day, Cardinal Gibbons presiding. Those present included Archbishop Ireland of St. Paul and Keane of Dubuque, Monsignor O'Connell, the rector, and Michael Jenkins and Charles Bonaparte, the latter recently chosen treasurer to succeed Thomas E. Waggaman. The financial condition of the university was found much more encouraging than the prelates had hoped. More than \$200,000 has been recovered from securities held by Mr. Waggaman and about half that amount on other investments.

### IN THE KOCH MURDER CASE.

Prosecution Rests Without Putting Brooks on the Stand.

Mankato, Minn., May 4.—The prosecution has rested in the Koch murder trial. Asa P. Brooks, the New Ulm newspaper man, who was the only witness of the crime, was not called by the state, and Judge Cray ordered that if Brooks was to be called he must be called by the defense, which accordingly will do so.

Attorney Sommerville has received an anonymous letter in which a man who says he is called a tramp but is not one, claims to have killed Gebhardt because the latter called him a coward.

### CASE OF DOUBLE SUICIDE.

Englishman and His American Wife End Their Lives.

Blackpool, Eng., May 4.—The bodies of Robert Rushton Shaw, an Englishman, who formerly lived at Burnley and inherited a small fortune from his father, and his wife Elizabeth, to whom he was married in the United States about five years ago, were found in a field during the day. Both had been shot and there was a revolver beside the bodies. It is believed to be a case of double suicide.

### POLICEMAN IS KILLED

SPECIAL OFFICER RAVERTY OF ST. PAUL SLAIN BY TWO SAFE-BLOWERS.

St. Paul, May 4.—Special Police Officer Peter E. Raverty was shot and fatally wounded by robbers in the office of the Brennan Lumber company on Kittson street early in the morning. Raverty and Officer Pugleasa went to the office of the lumber company to telephone a friend and, when Raverty turned on an electric light a fusillade of shots was fired from behind the office counter. Raverty was hit three times and fell to the floor fatally wounded. After a revolver duel with Pugleasa the burglars escaped for the time being. Pugleasa was not wounded.

The burglars had blown the outer covering off the door of a safe and were working on the inner mechanism when they were surprised by the appearance of the officers, who had no thought of finding the place occupied. The burglars obtained no booty.

Two men were later captured at Hastings whom the police are confident are the men who shot Raverty.

One gives the name of James R. Eagan, twenty-eight years old. He says he was born in Douglas county, Neb. The other says he is Harry Laramie, thirty-three years old of Los Angeles, Cal.

Officer Raverty, who was married, died of his wounds at the city hospital at about 11 p. m.

### Woman Commits Suicide.

New York, May 4.—Mamie Van Ranst, forty-four years old, a daughter of the late C. W. Van Ranst, a publisher of this city, was found dead in her apartments on St. Nicholas avenue during the day. A shoestring was tied tightly about her neck. She left a note saying she was tired of life.

JIM HILL thinks the building of the big ditch, known as the Panama canal, is a piece of foolishness. But then Jim isn't the whole thing when it comes to government affairs.

THE county attorney of Beltrami county is being investigated by the public examiner under direction of the governor and he has handed in his resignation. He doesn't believe in being fired at any rate.

THE commercial club of Little Falls, according to the Transcript, will endeavor "to get the Vineland stage route to start from that city instead of Brainerd." That would certainly be a body blow to Brainerd, if finally consummated, almost equal to the taking off of the daily mail trains.

SENATOR LORD is a candidate for governor, according to the Freeborn County Times. As the present governor has

served but four months of his two year term it would seem a trifle early to start the ball rolling. If the senator is a candidate a year from now he will undoubtedly have a large following in the southern part of the state at least.

AN Omaha woman, by a mistake of names entered in the decree, was divorced from her son and given the custody of her husband. Possibly that would answer the purpose better, for having custody of her husband and control over his actions she might not wish to be separated from him.

WM. HEARST, the yellow journalist and erstwhile candidate for the democratic presidential nomination, has sued Charley Towne, our own Charley, for \$6,000 alleged to have been loaned the latter gentleman during the heat of the last campaign. It seems that Charley was not exactly true to his trust and did not remain loyal to Hearst when the latter gentleman needed him most—and now Hearst wants him to pay back the coin.

THE president of these United States will finish his hunting trip and quit the wilds of the west on Sunday and return to the executive mansion to take up the strenuous duties of his office again. Roosevelt enjoys camp life and the companionship of his dogs and gun to as great an extent as the most ardent sportsman and he gets more real enjoyment out of a six weeks hunting trip than he would in a whole year of gay society.

THE Wisconsin solons have passed a law which, on its face, is one of the most far reaching measures against corruption ever passed by any legislative body. Under its provisions any person who gives or offers any agent, servant or employee any gift or gratuity with intention to influence his actions in relation to his employer's business or any one who accepts such a gift is guilty and liable to a fine of from \$50 to \$500. Bootblacks, porters and waiters come under the provisions of this law.

THE mayor of Fergus Falls has issued orders that in the future the saloons of that city must be conducted strictly in compliance with the law, no gambling with dice, cards or other devices will be allowed and the places must be closed at 11 p. m. and all day Sundays. Fergus

is copying after St. Louis, the population of which is said to be several thousand less on Sundays than on week days since the law has been enforced owing to the fondness of the populace for the beverage that made Milwaukee famous and which they cannot now obtain in the largest city of Missouri on that day.

#### Clay Pipes In Graves.

A very curious old custom is associated with interments in the cemetery of Labruick, Connemara, Ireland. A box of pipes—short clays—is brought with the coffin, and a pipe with tobacco is served out to each mourner. The pipes are smoked in silence after the earth has been filled in and a mound of stones raised above the grass, the ashes are solemnly knocked out on the top and the pipes broken or left behind. The origin of this custom is unknown, but it is thought to be emblematic of "ashes to ashes, dust to dust." Empty black bottles are also to be found scattered about the site.

## TWO RURAL ROUTES ARE ESTABLISHED

Local Post Office is Notified That  
Service Will Begin June 1st  
From This City

## PATRONS MUST ERECT BOXES

At Their Own Expense in Order to  
Receive the Benefit of the  
Free Delivery Service

The postoffice department has notified Postmaster Ingersoll that the two rural free delivery routes as laid out by Rural Agent Battie some three weeks ago have been approved and that service will be started on them on Thursday, June 1st. The routes are described as follows:

Route No. 1: Beginning at the postoffice the carrier will go south on 8th street 1 mile and east to east line of Sec. 36 one-half mile, south on 13th street road to Sewell postoffice at the southeast corner of section 1, east 2, south 1 and east to the middle south line of section 9 or Shepherd postoffice, retracing to the southeast corner of section 6, north three, east one, north 4, to southeast corner of section 32, west one, north one and a half to Oak street road, west on Oak street road to city limits and postoffice.

The total length of this route is 27 and one half miles, the area covered being 32 square miles, number of houses on the route 121 and the population served 605.

Route No. 2: Beginning at the postoffice the carrier will go east on Oak street to city limits and middle west line of section 30, south one-fourth, easterly two and one fourth, north one-fourth to middle west line of section 28, east to center section 27, northeast to middle south line section 11, west to middle south line section 11, south one, west one and one-half, south one, west two, south one-half to Oak street road, west on Oak street road to city limits and postoffice.

The total length of this route is 27½ miles, area covered 32 square miles, number of houses on route 115 and the population served 575.

The examination for carriers on these routes will be held in this city but the local examining board has not yet been notified as to the date but it will of necessity be within a short time as the inauguration of the service is now but little over three weeks off; those who

have made application to take the examination will be informed direct from the civil service board at Washington of the date.

Every party on the routes who desire to receive the service will be obliged to erect and maintain at their own expense a box selected from among the number approved by the department. Those who do not comply with this requirement will be considered as not desiring the service and they will under no circumstances be served. The boxes must be so located that the carrier can deliver the mail and collect from the same without getting out of his rig.

The carriers who are selected by the civil service board to do the work will receive \$720 per year which includes horse hire, and they will be required to make a daily trip over their route leaving the postoffice at Brainerd at 8 a. m. and returning to the office not later than 4 p. m.

## HEIRLOOM OF MUCH INTEREST

In the Way of a Corset Handed Down in  
Family of Miss Clara Fuller, of the  
H. F. Michael Company

An old corset, thought to have been manufactured about 155 years ago, is on exhibition in the H. F. Michael company show windows and it is attracting considerable attention. The corset is the property of Mrs. T. W. Lockwood, of Parkville, Wis., an aunt of Miss Clara Fuller, who is with the H. F. Michael company. It was made in the year 1750 as near as can be learned.

The corset is made of homespun linen and the stays are of sticks whittled out of hickory. It is bound at the top and bottom and where both ends meet with buckskin and the strings are of the same material.

One of the unique features of this gear is what was known in early days as the corset board. This is a small piece of thin wood about four inches wide and 12 inches long and in early days was worn in the front to produce the straight breast. This corset was made for Mrs. T. W. Lockwood's grandmother and the board was made by Lockwood for his wife before they were married. It was considered in those days a great compliment to have a young man make a corset board for his lady friend.

Mr. and Mrs. Lockwood were people who paid much attention to dress and this corset represents one of the best of its kind in that day. There is quite a contrast in style and a vast improvement in comparison with corsets of the latest models, which the H. F. Michael company have displayed in their window, alongside the old style corset.

## ELECTED STATE CONSUL

A. L. Hoffman, of This City. Elected to a  
Prominent Office at State Cam-  
paign, M. W. of A.

The election of a state consul and the re-election of the state clerk constituted the principal business transacted at the opening session of the state biennial campaign of the Modern Woodman of America at Minnehaha hall St. Paul yesterday.

A. L. Hoffman, of Brainerd, was elected state consul, and F. A. Noble, of Duluth, was re-elected state clerk. As soon as his successor was elected, retiring state consul, W. A. Devine, of Minneapolis, surrendered the chair to him.

## DEERWOOD.

There are good prospects of a fine summer if it ever stops raining.

Cuyler Adams, of Duluth, was here on Monday looking over his drills.

Oscar Carlson has purchased a new horse to do his evening driving.

We see the old livery man around again not doing business this time.

C. J. Rathvon has vacated the Inn and now resides in the old land office.

H. B. Blackwood spent the first part of the week in Klondike looking for iron ore.

R. C. Jamison received a new drill on Tuesday which is now at work south of here.

Judge Edson was in Deerwood on Monday looking over his iron interests in this locality.

Supt. Rudolph is constructing a new ice house at his summer home where we hope he will keep cool.

The wind was so strong last Saturday night that it blew some loose brick through Coffin's east window.

Ed Rhodes came back from Rosberg on Tuesday where he has been loading logs for the Nichols Lumber Co.

John Oberg returned from Minneapolis some time ago. He says we can get butter at the creamery next Tuesday.

W. T. Ten Brook, of Duluth, has taken charge of the old Inn which will hereafter be known as the Ten Brook.

Basil Rathvon is figuring on moving back to the hotel as the girls are very attractive, still he says there is none like his own.

We understand there was a pugilist in town Sunday morning. But Jay has retired from the ring and turned the belt over to D. H., as he could not deliver the goods.

W. H. Wilkinson takes as much interest in the new hotel as he formerly did in Aitkin, his reasons for doing so seem very good though the boys cannot see it in the same light.

There are too many dogs in Deerwood, so says dad when he got out to separate a couple of them and let his horse escape his observation. Had it not been for Lyman things would have been serious.

## The Beet Industry in Crow Wing.

### EDITORS DISPATCH:

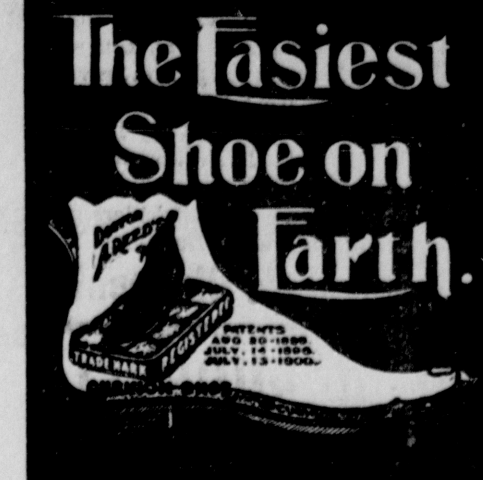

I learned yesterday with regret that the business men of Brainerd were abandoning the plan of putting up a beet factory here because of uncertainty as to the possibility of beets being raised on the soil of our county. I hope it will not be resented as an intermeddling if I assure all concerned that there is no more doubt of this county being able to grow good sugar beets or any other kind of root crop in paying quantities and quality than there is of growing sand burrs. As one who for many years has maintained a scientific interest in an old love, that of agriculture in all its branches, I would venture all I possessed, had I the money, alone in the beet industry. As an illustration, not especially prepared for this occasion, I send you a sample of half sugar beet grown last year under the most discouraging conditions and which is now as sweet and fresh as if only pulled yesterday. While I have no sympathy with that code some men follow of taking unfair advantage of another in the great game, yet it is not only legitimate but wise to seize an opportunity when it stands waiting for the taking. And the misfortune of the St. Louis factory can be turned, if taken at the opportune moment, which is NOW, to the great advantage of the local interests. Take time by the forelock; send out your advertisements to the farmers to go ahead and seed their contemplated fields with sugar beets; guarantee to take all they can raise; put up your factory; put in an expert corps of sugar makers, have satisfactory terms with the railway management and by fall you will be doing a business that other firms have had to work up by years of hard toil and slow growth. And why not at the same time consider the putting in of a starch factory? This could be made to manufacture not only starch but dried or evaporated potatoes—quite a market for this—and even other fruits, which in time would grow into a paying canning factory for corn, tomatoes and small fruits. Things of this kind will do more to build up Brainerd and the county than ten saw mills. Yours for the best interests of the city and country.

And to the farmers permit me to suggest, go ahead and experiment this season anyway. On you rests the proof; give it this year. Your beets will pay you as food for your stock, but remember that you will have the best results on prepared soil. On no crop can you have the fullest results with green manure. Have your fields for hoe crops prepared the year before. Thorough tillage, clover sod, rotted compost, good seed and timely culture are essentials for good, paying crops. Of this more some other time. With the editor's permission I will now and again, in a special corner, give you some gleanings on this and other topics of interest to farmers. But go ahead and sow at least half an acre this year on your best prepared soil. You will then have served an apprenticeship which will enable you with confidence in yourself and your land to undertake the full responsibility of beet raising another year. This factory will supply you with pulp for your cows. Have a good share of the herd fresh in the fall so that you can utilize the best roots or pulp for your milk cows during the winter and so keep the creamery busy all the year and your income growing the year round. Why work all summer to eat it up during the winter when you can do a paying business all the year round.

## MUSIC AND DRAMA.

"HOTTEST COON IN DIXIE" A HUMMER.

The "Hottest Coon in Dixie" will be at the Brainerd opera house tomorrow night and this is what the Duluth News-Tribune thinks of the show:

"The S. R. O. sign had to be dusted off and hung in the lobby at the Metropolitan last evening when the 'Hottest Coon in Dixie' opened its engagement. This company is the best colored organization ever seen in Duluth and comprises some of the finest colored talent in the country. There is a large company of comedians and singers and they managed to keep the big audience in a continuous uproar from the rise of the curtain to the final act. There is no story or plot connected with the 'Coon'—just a jumble of song, music and rhythm, every performer doing something to add to the merriment. There are some thirty-odd people in the cast and every one is a singer and dancer. Some of the singing was far above the average heard in musical comedies played by white people and that it was thoroughly enjoyed was demonstrated by the large amount of applause. There is a musical act given by a couple who perform on various instruments with a skill that shows them to be thorough musicians. There will be three more performances—tonight, tomorrow night and matinee. The show is worth while."

Seats now selling at Dunn's. Regular prices.

BEN HENDRICKS IN "OLE OLSON".  
"Ole Olson," the quaint and natural comedy drama in which the Swedish comedian type of character was first made use of for stage purposes will be played here at the Brainerd opera house, Monday, May 8.  
The Swedish dialect comedy has taken its place as a fun maker by the side of the German, Irish and Yiddish dialect plays and "Ole Olson" is easily the most interesting and pleasing of this style of dramatic work. The character is presented with natural dignity and a full appreciation of comedy effects. The play of course centres around "Ole" and his cool and unflinching schemes of the villain never fails to get rounds of applause. The company that will present the comedy here is an excellent one in every respect and is under the direction of Ben Hendricks, who plays "Ole." Many new and catchy specialties are introduced. Seat sale opens Saturday morning. Regular prices.

## TORNADO IN OMAHA

**WRECKS A BUILDING AND THREE OF ITS OCCUPANTS ARE KILLED.**

**SEVEN OTHERS BADLY HURT**

**COLLAPSE OF STRUCTURE CAME WITHOUT WARNING TO THE INMATES.**

Omaha, May 4.—Three persons were killed and seven others badly injured by the collapse of a three-story building at Thirteenth and Grace streets during the day. The building was occupied by the Omaha Casket company and the killed and injured were, with one exception, employees of the concern. The dead are:

Jacob Kirschner, L. Mon Martin and Henry Dietl.

The collapse of the casket factory was due to a heavy windstorm, which at a point near the factory assumed the proportions and actions of a small tornado. The building was a substantial one of brick, three stories high. The collapse came without warning.

W. A. Smith, a shipping clerk, who was the first to extricate himself, said he saw a storm coming and went to a door to close it. Just as he reached the door the whirling storm struck the building. The roof was raised, into the air and dropped, causing the heavy brick walls to collapse. Those inside the building were carried down, some to death, while they were at work.

A hundred employees of a nearby brewery rushed to the factory and a call was sent to the police and fire departments.

The rescuers set to work promptly, but it was an hour before any of those buried in the wreckage could be rescued.

Kirschner, Martin and Dietl were all taken out in an unconscious condition and none survived more than an hour.

## BAD FIRE AT DULUTH

**THREE MEN BURNED TO DEATH AND TWO OTHERS ARE REPORTED MISSING.**

Duluth, May 4.—The Fifth avenue hotel, Fifth avenue West in the wholesale district of Duluth, was destroyed by fire at midnight. Three lives were lost and two men are missing. Three bodies recovered, that of John Myes and two unknown. A gale was blowing and made fire fighting difficult. The hotel was a wooden structure.

## DISTURBANCES IN RUSSIA.

**Reports of Disorders on May Day Now Coming In.**

St. Petersburg, May 4.—Reports of slight disturbances in various places of European Russia during Easter Monday are now coming in. The gravest occurrence in that part of the empire was at Mitopol, where a mob for several hours held high carnival and burned a portion of the town.

At Nizhni Novgorod a regular battle occurred between soldiers and the crowds. The soldiers fired, killing one person and wounding many.

The reports received by the embassies here substantially agree in saying that the number of persons killed at Warsaw Monday was forty to fifty. The figures given of the wounded vary from sixty to two hundred.

## MACEDONIAN REFORMS.

**Will Be Administered By All Powers Signatory to Berlin Treaty.**

London, May 4.—Confirmation has been obtained at the foreign office here of the statement in a dispatch from Vienna on May 2, that Austria and Russia had acceded to the demands of Great Britain, Italy and France that the new Macedonian financial reforms should be administered by all the powers signatory to the Berlin treaty and not only by Austria and Russia. This is considered here as an important diplomatic victory and a long step towards the settlement of the near Eastern question.

## SNOW STORM IN MONTANA.

**Record for May Broken by a Fall of Thirty Inches in Three Days.**

Red Lodge, Mont., May 4.—The present storm is the worst for May in the history of this section, more than thirty inches of snow having fallen in the past three days. Sheepmen will suffer heavy losses, as this is the lambing season. For the first time in a year the stage lines from here have been compelled to abandon their trips. Merchants are unable to deliver goods on account of the depth of the snow.

## Cyclone in Minnesota.

Worthington, Minn., May 4.—A cyclone passed through the village of Round Lake at night, demolishing four houses, a blacksmith shop and several barns and fatally injuring Mrs. Meyers.

Woodstock, Ont., May 4.—James Sutherland, Canadian minister of public works, is dead.

## GOLL BACK IN MILWAUKEE.

**Alleged Embezzler Caught in Chicago and Jailed.**

Milwaukee, May 4.—Henry G. Goll, the former assistant cashier of the First National bank of this city, charged with embezzlement, who was arrested in Chicago during the day by Detective Dennis Sullivan of this city, was brought back to Milwaukee at 9 p. m. and is now locked up at the central police station.

When searched Goll had but \$26 on his person. He refused absolutely to answer any questions and would not go even so far as to tell his age upon being booked.

Goll will be turned over to the United States authorities and will appear before United States Commissioner Bloodgood during the day. It is expected he will waive preliminary examination as did Frank G. Bigelow, and that his case will come before the federal grand jury probably late this month.

## PRESIDENT IS STORM-BOUND.

**Cut Off From the Outside World by Snow and Rain.**

Glenwood Springs, Colo., May 4.—For three days the president's hunting party has been storm-bound in the mountains. Rain and snow have fallen continuously and there is no sign of a break. The roads are muddy and the trails accordingly are dangerous for horsemen. Mountain streams are raging torrents and most of them cannot be crossed. Grizzly bears are the only kind of game that will be hunted for now on.

Thus far the king of the Rocky Mountain beasts has eluded the president and he is anxious to get one. Ten brown bears have fallen to the party and some were of good size.

## Hot in the Northwest.

La Crosse, Wis., May 4.—Wednesday was the hottest day of 1905 throughout the Northwest. At La Crosse the weather bureau thermometers stood at 82. Severe storms of a cyclonic nature are predicted to follow.

## SPRINGS A SENSATION.

**Philadelphia Man Accuses Gas Company Official of Bribery.**

Philadelphia, May 4.—One of the sensations of the day in the proposition to lease the Philadelphia gas works to the United Gas Improvement company, was the reading at a mass meeting held at the Academy of Music at night of an affidavit made by Robert Dornan, carpet manufacturer, that bribery was resorted to when the United Gas Improvement company secured its present thirty-year lease of the gas works in 1897. Mr. Dornan's affidavit was read by William F. Tilden, secretary of the meeting. The affidavit says that through the instrumentality of William F. Durham, the Republican leader of this city, a syndicate known as "The Ridgeway syndicate" was formed to bid in opposition to the United Gas Improvement company for the lease in 1897, and that he (Dornan) and a friend were requested to become members of the syndicate, and did so.

Mr. Dornan concludes his affidavit by directly charging Mr. Dolan, as the representative of the United Gas Improvement company, "with the corrupt use of a large sum of money and other valuable considerations to induce the Ridgeway syndicate to withdraw its bid for the lease."

## JAMES J. HILL TESTIFIES.

**Says Discriminations in Railroad Rates Are Necessary.**

Washington, May 4.—James J. Hill, president of the Great Northern railway, followed Mr. Mather before the senate committee on interstate commerce during the day. He said there was only one safe basis on which a low rate could be made, and that was the low cost of producing the transportation. The value of the service is determined by the density of the traffic, and that makes the rates vary with conditions. On his road, he said, they had to take into consideration what the country produces.

Discriminations were necessary, said Mr. Hill. When his road was built he went to Washington state and found that its greatest product was lumber. There was a rate of 90 cents per hundred on lumber to the Eastern market. Lumber dealers said they could ship at 65 cents. He knew they could not do it, and he made a rate of 40 cents and was shipping large quantities of lumber. This was a discrimination against lumber on the eastern end of the road, but in ten years there would be no lumber produced in that section. It was because the cars going out with merchandise brought loads back that these low rates could be made.

## RUSSIAN SHIPS AT SEA

## CRUISERS THAT HAVE BEEN AT

**VLADIVOSTOK HAVE LEFT THAT PORT.**

## Paris, May 4.—A dispatch to the Temps from St. Petersburg says that dispatches received there through Russian channels confirm the previous reports that the Russian cruisers which have had their headquarters at Vladivostok since the outbreak of the war with Japan have left that port.

Military circles at St. Petersburg, it is added, expect General Oyama will hasten the investment of Vladivostok for the purpose of cutting off Admiral Rojesvsky's squadron from the Russian naval base. The officials do not expect a junction of the Russian warships before May 9, as Admiral Nebogatoff must take on coal before proceeding to the island of Hainan.

## London, May 4.—Cabling from Tokio, the correspondent of the Daily Mail says that dense fogs continue to prevail on the China and Japanese seas. The correspondent says it is definitely known in Japan that on May 2 ships of the Russian Second Pacific squadron were in Port Dait.

## Saved by Dynamite.

Sometimes a flaming city is saved by dynamiting a space that the fire can't cross. Sometimes, a cough hangs on so long, you feel as if nothing but dynamite would cure it. Z. T. Gray, of Calhoun, Ga., writes: "My wife had a very aggravated cough, which kept her awake nights. Two physicians could not help her; so she took Dr. King's New Discovery for consumption, coughs and colds, which eased her cough, gave her sleep, and finally cured her." Strictly scientific cure for bronchitis and La Grippe. At H. P. Dunn & Co.'s drug store, price 50c and \$1.00; guaranteed. Trial bottle free.

## Fatally Wounds His Son.

St. Paul, May 4.—Shortly after midnight Anton Wiri shot and probably fatally wounded his son James, aged twenty-three. The father had been drinking and the son tried to prevent him smashing the furniture, when the enraged man shot twice at his son, one bullet penetrating the boy's left side. The father is under arrest.

## Terrific Race With Death.

"Death was fast approaching," writes Ralph F. Fernandez, of Tampa, Fla., describing his fearful race with death, "as a result of liver trouble and heart disease, which had robbed me of sleep and of all interest in life. I had tried many different doctors and several medicines, but got no benefit, until I began to use Electric Bitters. So wonderful was their effect, that in three days I felt like a new man, and today I am cured of all my troubles." Guaranteed at H. P. Dunn & Co.'s drug store; price 50c.

## SAVAGES AND BRUTES.

**Odd Attitude of the Primitive Man Toward All Animals.**

For the primitive savage animals are mysterious, problematic beings, possessed of a wide knowledge of the things of nature. They know much more than they are ready to tell us. In some way or another by the aid of senses much more refined than ours and by telling to each other all that they notice in their rambles and flights they know everything for miles around. And if a man has been "just" toward them they will warn him of a coming danger, as they warn each other, but they will take no heed of him if he has not been straightforward in his actions. Snakes and birds (the owl is a leader of the snakes), mammals and insects, lizards and fishes—all understand each other and continually communicate their observations to one another.

Inside this vast brotherhood there are, of course, the still closer brotherhoods of beings "of one blood." The monkeys, the bears, the wolves, the elephants and the rhinoceroses, most ruminants, the hares, a most of the rodents, the crocodiles, and so on, perfectly know their own kin, and they will not tolerate any one of their relatives to be slaughtered by man without taking in one way or another honest revenge. This conception must have had an extremely remote origin.

Even now when a savage is hunting he is bound to respect certain rules of propriety toward the animals, and he must perform certain expiatory ceremonies after his hunt. Most of these ceremonies are rigorously enacted even nowadays in the savage clans, especially as regards those species considered the allies of man.

It is well known that two men belonging to two different clans or tribes can become brothers by mixing the blood of the two obtained from small incisions made for that purpose, but it was also quite habitual for man to enter into brotherhood with some animal. The tales continually mention it. An animal asks a hunter to spare it, and if the hunter accedes to the demand the two become brothers. And then the monkey, the bear, the doe, the bird, the crocodile or the bee—any one of the sociable animals—will take all possible care of the man brother in the critical circumstances of his life, sending his or her animal brothers of different tribes to warn him or help him out of a difficulty. And if the warning comes too late or is misunderstood and he loses his life they all will try to bring him back to life, and if they fail they will take due revenge, just as if the man had been one of their own kin.

When I journeyed in Siberia I was often struck, without understanding it, with the care which my Tungus or Mongol would take not to uselessly kill any animal. The fact is that every life is respected by a savage, or, rather, it was before he came in contact with Europeans. If he kills an animal, it is for food or for clothing, but he does not destroy life, as the whites do, for the mere excitement of the slaughter.

True, the red Indians have done that with the buffaloes, but it was only after they had been for a long time in contact with the whites and had got from them the rifle and the quick firing revolver. Of course there are rascals among the animals—the hyena, for instance, or the shrewmouse or the man eating tiger, but these do not count; they are outlaws. As to the great animal world as a whole, savage children are taught to respect it and see in it an extension of their own kin.—Prince Kropotkin in Nineteenth Century.
